

## Enterprise Rent-A-Car Pilot Program

On August 1, 2006, the Division of Fleet and Surplus Services will begin a pilot program to study the potential benefits of privatizing the daily motor pools in the state fleet. During the initial roll out of the pilot, the State Office Building motor pool will be the only location measured. If successful, the pilot will be expanded to the Draper motor pool location in the late fall. The pilot program is expected to cover a total of 7-months. At the conclusion of the pilot the Division of Fleet and Surplus Services will send out a formal RFP to local rental agencies or return to the current daily pool management practices. The decision to privatize the daily pools in the state will be determined on the level of customer service offered by the private rental vendor and the financial costs to the state with privatized vehicle rental services.

### Enhancements offered by Enterprise Rent-A-Car for this pilot:

- ✓ Extended service hours (see branch location hours below)
- ✓ Free pickup and drop off service
- ✓ Newer model vehicles with low mileage
- ✓ Expanded rental branch locations
